INTRODUCTION

The first regular session of the One Hundred and Third General Assembly convened on Tuesday, January 14, 2003, and continued until Thursday, May 29, 2003, when it adjourned sine die. The second session of the 103rd General Assembly will convene on January 13, 2004. At the time of publication of this index, there are 418 new designated public chapters and 65 new private acts.

All acts that relate to county government have been summarized in this publication. Acts are arranged alphabetically under broad groupings of subject content. Within a particular subject, the acts are arranged numerically by public chapter. Part 1 contains summaries of public acts of general application; Part 2 contains summaries of public acts of local application; Part 3 contains summaries of private acts. If your county does not appear in Part 2, no public acts of local application were passed during this session affecting your county. If your county does not appear in Part 3, then your county had no private acts passed during this session. The county names are arranged alphabetically in Parts 2 and 3, with the acts arranged numerically under the county listings.

Every attempt has been made to accurately summarize the new laws. However, the actual text of the law should be consulted prior to taking action on the changes in the laws summarized in this publication. You should consult your county attorney to assist you in interpretation of the new laws. If you desire copies of the acts or have need of other information, please feel free to contact the CTAS county government consultant for your county. You may make copies of this publication for sharing with other county officials and employees. We hope this information will serve to keep you advised of legislative developments and will be of benefit to officials in the planning and management of their offices.

Sincerely,

Michael Garland
Executive Director

Public Chapter 231

Senate Bill 1279 (McNally) House Bill 875 (Johnson)
Amends numerous statutes regarding adoption. Provides that, in order to constitute abandonment, the failure to support or make reasonable payments toward the support of a child must be willful. Provides that a court report based upon any home study conducted by a licensed child-placing agency, licensed clinical social worker or the department which has been completed or updated within six months (instead of one year as provided in present law) prior to the date of the surrender or order of reference must be accepted by the court for purposes of a pre-surrender request for home study. Specifies that neither consultation of the putative father registry nor any filing of affidavits is necessary if an attorney, social worker, or child-placing agency provided professional services where a minor child who was previously adopted under the laws of any jurisdiction is subsequently re-adopted in this state. Revises the time within which an interested person must stop paying for reasonable costs of the child from "a period not to exceed 30 days after the birth, surrender, or parental consent to the adoption of the child" to a period not to exceed 45 days of any such event. Provides that surrender or consent is not valid if given within 10 days subsequent to the date of the child's birth. Increases the time within which the putative father registry must be consulted for parental rights to be terminated from three working days to 10 working days. Specifies that where a person is not the legal parent or guardian and such person's parental rights are to be terminated, the determination of whether the person is not a legal parent or guardian would be measured at the time of the filing of a petition to terminate the person's parental rights or, if no such petition is filed, at the time of the filing of a petition to adopt a child. Permits the clerk of the court in which adoption proceedings have occurred to furnish certified copies of the final order of adoption or re-adoption or final orders dismissing such adoption proceedings to the adopted person, adoptive parents, or their attorneys, upon request regardless of requirements of confidentiality. Provides that proceedings where visitation with the child is sought are suspended pending the court's orders in the adoption proceeding.
