Preventing Losses Saves Money

Dear Reader:

The following document was created from the CTAS website (ctas.tennessee.edu). This website is maintained by CTAS staff and seeks to represent the most current information regarding issues relative to Tennessee county government.

We hope this information will be useful to you; reference to it will assist you with many of the questions that will arise in your tenure with county government. However, the *Tennessee Code Annotated* and other relevant laws or regulations should always be consulted before any action is taken based upon the contents of this document.

Please feel free to contact us if you have questions or comments regarding this information or any other CTAS website material.

Sincerely,

The University of Tennessee
County Technical Assistance Service

Preventing Losses Saves Money

Reference Number: CTAS-761

The function of a county government risk management program is two-fold. First, the program organizes the process of preventing losses. Some losses such as tornado damage cannot be prevented. Some losses occur because normal control measures fail. The second part of the risk management function, therefore, is to reduce the severity of losses that do happen. Risk management, as a critical component of any sound organization, can save money so that county commissioners can allow budget adjustments and keep tax increases low. A working program allows county mayors, county commissioners, and other officials, as well as general county employees, to provide better essential services, and to improve the overall performance of county government in the eyes of the public it serves.
