TECHNICAL REPORT 90-4

TENNESSEE COUNTY TAX STATISTICS

November 1989

Prepared by

Judy F. Reinhart

Authorization Number E15-1570-00-002-90

THE UNIVERSITY OF TENNESSEE COUNTY TECHNICAL ASSISTANCE SERVICE

226 Capitol Boulevard Building Suite 400 Nashville, Tennessee 37219-1804 (615) 242-0358

The following text and tables represent our sixteenth annual compilation of tax statistics for county governments in Tennessee. The information provided is the most current as of publication; however, certain changes will no doubt take place shortly due to the dynamic nature of county government.

Since our last report, one (1) county (Macon) levied a new wheel tax and three (3) counties (Claiborne, Montgomery and Sumner) enacted a new wheel tax or increased their current wheel tax levy, one (1) county (Greene) decreased its wheel tax, and one (1) county (Fentress) repealed its wheel tax in 1988 and relevied the tax at a lower rate in 1989; and five (5) counties (Johnson, Lauderdale, McMinn, Sequatchie and Unicoi) levied a new hotel/motel tax. (NOTE: Both the newly enacted tax in Claiborne County and the increase in the current tax in Sumner County are subject to referendum.)

Information on local litigation taxes is not included in our report. Most counties do levy this tax in varying amounts and for a myriad of purposes. Its ease of passage (simple resolution) has made it a popular source of much needed revenues.

It is our legislative mandate to provide county officials with information useful in the operation of their offices. In this respect, we hope you find this report beneficial in analyzing revenue sources available to county government. If CTAS can provide other information relating to this report, please contact us at your convenience.

Robert M. Wormsley Executive Director

TENNESSEE COUNTY PROPERTY TAX RATES

(1989 TAX YEAR)

Since our last report on tax rates, counties have again experienced increases in operating costs (utilities, insurance, wages, etc.) which must be funded from a deteriorating tax base further burdened by few alternatives for new revenue. The source of revenue most heavily depended upon by counties is, of course, the property tax. This tax is levied on all real and personal property based on its classification and subsequent assessed value as follows:

Residential and Farm Property:
(\$7,500 exemption on household goods and furnishings)
Industrial & Commercial Property:

Real-25% of appraised value Personal-5% of appraised value

Public Utilities:

Real-40% of appraised value Personal-30% of appraised value Both-55% of appraised value

Several categories of real and personal property are exempt from property taxes.

These categories are:

- 1. <u>Governmental</u> This exemption applies to any property owned by the federal, state or local governments or any governmental agency if used exclusively for governmental purposes.
- Government Securities Bonds and notes of the state, counties, municipalities or housing authorities.
- 3. <u>Exempt Entities</u> Property owned by religious, charitable, scientific or nonprofit educational institutions and used exclusively by and for such institutions.
- 4. <u>Certain Educational Institutions</u> Dormitories, the residence of the chief executive officer of a college or university (subject to certain conditions), faculty housing provided by a college or

1

- university (subject to very strict restrictions) and college or university bookstores.
- 5. Personal Personal checking or savings accounts, plus \$7,500 per person (or \$15,000 for a husband and wife) worth of: household furnishings, clothing, musical instruments, private passenger automobiles, jewelry, etc.
- 6. Agricultural Farm personal property (up to \$7,500), nursery stock and timber, livestock and poultry (except for meat processors), etc.
- 7. <u>Charter or Contract Property</u> All property protected by a valid charter or contract exemption is exempt.
- 8. Low Cost Housing for Elderly and Handicapped Property of a nonprofit corporation used for below-cost housing for the elderly or handicapped and financed by the U.S. government under Section 202 of the Housing Act of 1959, Sections 221, 231 or 236 of the National Housing Act or Section 8 of the U.S. Housing Act of 1937, as amended by the Housing and Community Development Act of 1974 if the nonprofit corporation is entitled to exemption from federal income taxation by virtue of being a charitable or social welfare organization.
- 9. <u>Leased Tangible Personal Property</u> The Tennessee Constitution authorizes a property representing inventory of a business held for sale or exchange. By statute, this exemption

extends to any inventory which is subject to the business gross receipts tax. Additionally, property held for lease has been held to qualify for this exemption even while it is in use by a lessee.

10. Other:

- a. airport runways,
- b. industrial development corporations,
- c. burial plots in use and monuments,
- d. historic properties,
- e. foreign property to be exported,
- f. property in transit,
- g. property used to recycle waste products.
- 11. Tax Relief for Elderly, Disabled For persons over 65 or who are totally and permanently disabled and who fit within an income limitation set by the Legislature (\$9,200 in 1989), the state provides credit vouchers for taxes due and payable on the first \$15,000 of full market value of the taxpayer's residence. Disabled veterans are entitled to receive vouchers for the first \$120,000 worth of full market value of residence. (No income limit)

In 1980, the Tennessee General Assembly passed legislation codified in part at T.C.A. 67-5-1605, which required the State Board of Equalization, effective January 1, 1981, to determine an annual overall median ratio of property appraisal to be used by the Public Service Commission in establishing assessments for public utilities in Tennessee. The established ratios for each county are then to be used by the Public Service Commission in assessing individual utilities in their respective counties. The ratios established for the 1989 tax year were adopted by the State Board of Equalization and published August, 1989. In 1989, counties in Tennessee had 126 taxing districts, excluding municipal taxing entities.

Table II-A shows each tax district's effective tax rate for 1989 versus 1988. This rate is determined by multiplying the taxing district's tax rate by the appraisal ratio as determined by the State Board of Equalization, and produces a more realistic comparison of property tax rates than use of the taxing district's actual tax rate. This table shows the effective rate to range from a low of \$1.04 in Hancock County to a high of \$5.54 in Morgan County.

Other than the fourteen (14) counties (with 18 taxing jurisdictions) undergoing reappraisal programs in 1988-89, eight (8) taxing jurisdictions decreased their tax rate, thirty-two (32) jurisdictions increased their rates and sixty-eight (68) jurisdictions used reserves or other revenue in funding their budgets with the same tax rate as set in 1988.

On the following pages you will find several tables which summarize the property tax rates set by counties in 1989. Table I shows the total county tax rates with a breakdown into the various county funds and the special school district tax rates. Table II gives a listing of 1989 tax rates for the 126 tax districts in Tennessee, showing present rate, prior year's rate, amount and percentage of increase or decrease. Table II-A gives a listing of 1989 effective tax rates, with the appraisal ratios and prior year's effective rate.

It is our sincere hope that the reader finds these tables informative and useful. For any additional information regarding this matter, please contact the CTAS field representative for your area.

^{*}Claiborne County - Tax rate was not increased based on the presumption of the availability of revenues from a newly enacted wheel tax. However, a petition calling for a wheel tax referendum has garnered sufficient signatures and a referendum will be held on the wheel tax sometime in the next month or so.

NOTE: Bledsoe, Cheatham, Dickson, Hamilton, Hardeman, Hawkins, Henry, Houston, Jefferson, Meigs, Sevier, Van Buren, Weakley and Williamson Counties participated in a reappraisal program in 1988-89. The 1989 tax rate is based on the result of this program and, therefore, cannot be compared on a percentage basis with the 1988 tax rate in this table.

COUNTYWIDE MOTOR VEHICLE TAX LEVIED IN COUNTIES OF TENNESSEE

Counties in Tennessee are authorized to levy a privilege tax on motor vehicles as a means of generating additional local revenue. Such a tax is generally known as a "motor vehicle privilege tax" or "wheel tax".

Forty-four (44) counties in Tennessee currently levy a wheel tax on motor driven vehicles within their respective boundaries. The tax ranges from \$10.00 to \$50.00 per vehicle with the majority levying a tax from \$20.00 to \$25.00 per vehicle.

The authority for counties to levy the motor vehicle tax is provided for in T.C.A. 5-8-102, which allows for three methods by which a county may adopt this tax:

- 1. Passage of a Private Act in the Tennessee General Assembly with subsequent local ratification by a two-thirds vote of the governing body or public referendum.
- 2. Passage of a resolution by the local governing body by a twothirds vote <u>and</u> a public referendum.
- 3. Passage of a resolution by the local governing body by a two-thirds majority vote at two consecutive regular commission meetings. This method does not require a public referendum.

Each of the three methods described above have been utilized by individual counties in enacting their respective wheel tax. Each method has its own advantages and disadvantages. Methods (2) and (3) may be initiated at any time during the year, while method (1) can be adopted only when the General Assembly is in session. Methods (1) and (3) allow enactment of this tax without a public referendum; however, the two-thirds majority vote requirement under each method may be difficult to meet.

In counties levying a motor vehicle privilege (wheel) tax, the duration or term for which the privilege is issued, method of collection, proration of the amount chargeable for a period of either more or less than a calendar year interval, and the grace period allowable shall be the same as that provided for in T.C.A., Section 55-4-104 for payment of state motor vehicle registration fees. In each county levying a motor vehicle privilege tax, the County Commission shall determine by resolution whether a resident operating a motor vehicle in the county shall have a decal or emblem affixed upon the motor vehicle as evidence of compliance. Any person failing to display a required decal or emblem shall be guilty of a Class C misdemeanor. Local officials should consider these and other factors in deciding which method best suits the circumstances in their county before enactment procedures are initiated.

Since the tax is levied on resident motorists within the county for the privilege of using the county roads, one might anticipate that revenues realized from this tax would be allocated to the county road fund for the building, repairing and general operation of the county road department. However, only nineteen (19) counties have elected to allocate all or part of the proceeds of this tax to the county highway fund, while the remaining twenty-five (25) counties allocate the proceeds from the tax for various uses such as debt retirement, education and ambulance service. Table III lists the counties in Tennessee which have levied a privilege tax on motor driven vehicles, the amount levied, the authority provided and a brief explanation of how the proceeds from this tax are spent. It should be noted that the language in some county resolutions provides for varying rates of tax depending on the vehicle affected, i.e., automobile, motorcycle, etc. For simplicity, the table only presents the rate adopted for passenger cars and trucks. Further information regarding the wheel tax can be found in the County Revenue Manual, published by CTAS.

The figures in Table IV represent motor vehicles registered in each Tennessee county as reported by the Tennessee Department of Transportation. To estimate how much revenue could be realized in your county with passage of a countywide motor vehicle tax, simply multiply the number of vehicle registrations by the desired privilege tax. Conversely, to determine what amount of tax would be required to bring in XX amount of dollars, simply divide the dollar amount by the vehicle registrations in your county.

It should be noted that CTAS does not advocate passage of such a tax in each county; however, we do feel that responsible county officials should be made aware of alternatives for raising needed revenues that other counties have utilized. In this regard, CTAS is ready to assist any county requesting further information on this subject.

TABLE III

A COMPILATION OF COUNTIES IN TENNESSEE WHICH LEVY A COUNTYWIDE MOTOR VEHICLE TAX 1989

COUNTY	AMOUNT	AUTHORIZATION	HOW SPENT	FINES
CANNON	\$10.00	Chapter 62, Private Acts 1975	Proceeds of the tax are deposited in the County General Fund and used for the county's school building or expansion programs.	\$15.00-50.00
CARROLL	\$10.00	Chapter 264, Private Acts 1976	Proceeds of the tax are deposited in the Highway Fund and used exclusively for county highway purposes.	\$10.00-50.00
СНЕАТНАМ	\$50.00	Chapter 209, Private Acts 1972 as amended by Chapter 39, Private Acts 1977; and Chapter 1, Private Acts 1987	Proceeds of the tax are divided as follows: ten dollars (\$10.00) is deposited in the General Purpose School Fund and used for school purposes; thirty dollars (\$30.00) is used to pay off outstanding school bonds of the county; and ten dollars (\$10.00) is used exclusively for the purchase of rock and gravel to be used on rural roads of the county, provided that no part may be used for the purchase of machinery or for labor on such roads.	Misdemeanor
CHESTER	\$15.00	Chapter 234, Private Acts 1972 As amended by Chapter 121, Private Acts 1975; and Commission Resolution as authorized by T.C.A. 5-8-102	Proceeds of the tax are divided as follows: ten dollars (\$10.00) is not specifically allocated for any purpose in the private act. However, it is apparent the legislative intent of this act was to provide support for a county ambulance service. Five dollars (\$5.00) is deposited in the County General Fund.	\$20.00-50.00
CLAIBORNE*	\$25.00	Commission Resolution as authorized by T.C.A. 5-8-102.	Proceeds of the tax are deposited in the County General Fund.	Misdemeanor Up to \$50.00
CROCKETT	\$25.00	Chapter 203, Private Acts 1963 as amended by Chapter 56, Private Acts 1975 and Chapter 6, Private Acts 1979 and Commission Resolution as authorized by T.C.A. 5-8-102	Proceeds of the tax are divided as follows: twenty dollars (\$20.00) is deposited in the County Road Fund; five dollars (\$5.00) is to be used for the purchase of school buses.	Misdemeanor
DAVIDSON	\$25.00	The initial \$15 regulatory fee was increased to \$25 by an ordinance passed by the Metro Council, 1980.	Proceeds for the regulatory fee are deposited in the General Fund and used to defray expenses in several categories.	\$5.00-50.00

LOCAL SALES TAX IN TENNESSEE COUNTIES

Any county by resolution of its county legislative body is authorized to levy a tax on the same privileges subject to the State Sales and Use Tax. The resolution is subject to approval by the qualified voters of the county. The county has priority over any municipality in levying the local option sales tax. A municipality may only levy a tax equal to the difference between the county's tax and the maximum rate. If there is no difference, the municipality cannot levy the tax. The process of repeal is the same as the process of adoption.

Exemptions to Tennessee's sales tax are numerous and complicated and fall into three major categories: 1) exempt transactions, 2) exempt entities, and 3) exempt items. The Department of Revenue requires strict documentation of sales to exempt institutions and of sales for resale. In addition, there are subcategories of exemptions:

1. Exempt Transactions

- a. Interstate Commerce
- b. Resale Exemptions
- c. Manufacturers' Exemption
- d. Occasional and Isolated Sales
- e. Non-Sales (refunds, replacements, etc.)

2. Exempt Entities

- a. Non-Profit Entities
- b. Governmental Entities
- c. Contractors for Exempt Entities

3. Exempt Items

- a. Agricultural
- b. Amusement Exemptions
- c. Food Stamps
- d. Industrial or Farm Machinery
- e. Medical
- f. Publishing and Printing
- g. Real Property

- h. Securities
- i. Vehicles
- j. Miscellaneous:
 - (1) caskets,
 - (2) gasoline used for agricultural purposes,
 - (3) school lunches and books,
 - (4) steam sold by a resource recovery facility,
 - (5) taxidermy services,
 - (6) gun show sales, and
 - (7) advertising.

The rate is determined by the county (and city), but may not exceed one-half (1/2) the state rate. The tax levied shall only apply to the first \$1,100 on the sale or use of any single article of personal property. Effective July 1, 1983, counties and cities were given the authority to increase the single article local tax cap by adopting a resolution or ordinance applying the local tax rate to the first \$667.00 of the purchase price of a single item during the 1983-84 Fiscal Year. If this resolution or ordinance was adopted, the single item base automatically increased to \$889.00 on July 1, 1984 and to \$1,100.00 on July 1, 1985. If such a resolution or ordinance is not adopted, the maximum single item sales tax cap will remain \$5.00 if the local sales tax rate is one percent (1%) or less and \$7.50 if the local rate is greater than one percent (1%).

The proceeds of the countywide local sales tax are distributed as follows:

- (1) One-half is distributed in the same manner as the county property tax for schools, including division with any city or special school district on an average daily attendance (ADA) basis;
- (2) One-half is distributed on the basis of where the sale occurred.

 Collections in incorporated municipalities go to their General Funds;

 collections in unincorporated areas go to such fund or funds of the

 county as the county commission shall direct. However, a county

 and city may enter into a contract providing for some other

- distribution of the half not allocated to schools.
- (3) Proceeds from this tax may, by resolution of the governing body and with approval by resolution by the county board of education, pledge these proceeds for the payment of principal and interest on bonds, notes or other evidence of indebtedness.

For further information on how a county may benefit from this sales tax, please refer to the pamphlet "The Local Sales Tax Handbook for Local Officials" available from the County Technical Assistance Service or contact the CTAS field representative in your area for details. As of this report date, all counties in Tennessee have levied a countywide local sales tax.

Of the ninety-five (95) counties in Tennessee, the countywide local sales tax is currently set as follows: five (5) counties levy a tax of 2.75%; five (5) counties levy a tax of 2.50%; fifty-five (55) counties levy a tax of 2.25%; twelve (12) counties levy a tax of 2.00%; five (5) counties levy a tax of 1.75%; twelve (12) counties levy a tax of 1.50%; and one (1) county levies a tax of 1.00%. Since last year, two (2) counties (Madison and Van Buren) increased their rate to 2.75%, two (2) counties (Montgomery and Roane) increased their rate to 2.50%, and one (1) county (Knox) increased its rate to 2.25%.

Table V includes a list of countywide sales tax rates for all counties with information regarding the increase in the local sales tax cap. Those counties which have passed the required resolution in two consecutive meetings are indicated by "Yes"; those which have not considered the resolution or have failed to adopt it are indicated by "No". For information regarding the proper method for removing the current local option sales tax cap, interested officials should contact the Department of Revenue, Sales Tax Division or their area CTAS Field Advisor.

HOTEL/MOTEL TAX IN TENNESSEE COUNTIES

The county property tax, wheel tax and local option sales tax have until recently been the only local tax base available for counties. However, with increasing demands for services by county citizens coupled with the ever-rising costs of these services caused by inflation, counties have been forced to look elsewhere for alternative revenue sources. One alternative which several counties have pursued has been the hotel/motel tax, a percentage tax much like the sales tax, levied on transient lodgings (less than 30 continuous days) at motels, hotels, inns, tourist camps, campgrounds and cabins.

After May 12, 1988, any Private Act which authorizes a city or county to levy a tax on the privilege of occupancy of a hotel shall limit the application of such tax as follows:

- (1) A city shall only levy such tax on occupancy of hotels located within its municipal boundaries;
- (2) A city shall not be authorized to levy such tax on occupancy of hotels if the county in which such city is located has levied such tax prior to the adoption of the tax by the city; and
- (3) A county shall only levy such tax on occupancy of hotels located within its boundaries but outside the boundaries of any municipality which has levied a tax on such occupancy prior to the adoption of such tax by the county. (T.C.A. 67-4-1425)

Forty (40) counties in Tennessee have levied a hotel/motel tax by passage of private or public legislation. Shelby County has the oldest tax, levied in 1969.

The tax varies in amount from 1 1/2% to 5% of the price of lodgings with one (1) county levying 1 1/2%, one (1) county levying 2%, eight (8) levying 3%, five (5) levying 4% and twenty-five (25) levying 5%. Table VI lists the counties in Tennessee which have levied a hotel/motel tax, the amounts, authorization, distribution of proceeds and fines assessed for late payment of the tax. While this tax may not be very lucrative in most counties, it can generate sizable revenues in others.

COUNTY MINERAL SEVERANCE TAX

An additional locally-levied tax included herein is the mineral severance tax which levies a per tonnage fee on business enterprises which extract certain minerals from the ground. The minerals usually included are sand, gravel, limestone, phosphate, clay and any other mineral which has commercial value. Prior to 1984, this tax could be authorized only by private act of the Legislature; however, T.C.A. 67-7-201, et seq, authorizes county legislative bodies, upon adoption of a resolution by the County Commission, to levy the tax on all sand, gravel, sandstone, chert and limestone severed from the ground.

Forty-six (46) counties currently levy the severance tax on minerals in Tennessee (excluding coal). The tax varies in amount from \$.05/ton to \$.15/ton* with all individual taxes being levied since 1979. Table VII gives a list of each county, the amount of tax, authorization, distribution and fines levied for late or non-payment of tax.

*Some counties are exempted by narrow population class from this limitation: Unicoi (16,360--16,450); White (19,500--19,575); Monroe (28,750--28,800); Jefferson (31,200--31,300); and Rutherford (84,000--84,100).

LITIGATION TAX IN TENNESSEE COUNTIES

Another popular source of revenue available to county government is the Local Litigation Tax. This tax may be levied on all original suits filed in General Sessions, Circuit, Chancery and other special courts in each county. Counties are allowed to levy a litigation tax in the same manner as the state litigation tax now levied by T.C.A. 67-4-602, et seq., and T.C.A. 16-25-5006 and 5008, in an amount not to exceed the amount of such state litigation tax.

Almost all counties have levied a local litigation tax, either by legislative private act or by resolution of the County Commission. The tax may be levied in an amount not to exceed \$11.25 in civil cases in circuit and chancery courts, \$14.25 in civil cases in general sessions courts, \$26.00 in criminal cases in criminal court and \$28.00 in criminal cases in general sessions courts. This tax may be used for any specific purpose as authorized by the county legislative body or the proceeds may be deposited in the County General Fund and used for general purposes. For more information on how this tax may be levied and a sample resolution, contact your CTAS field representative.

TAX RATE SUMMARY

I. PROPERTY TAX RATES

Actual county property taxes enacted in 1989 range from a low of \$1.06 to a high of \$5.95, with effective rates ranging from a low of \$1.04 to a high of \$5.54.

II. WHEEL TAXES

As of the date of publication, forty-four (44) counties had enacted a county wheel tax. (NOTE: Both the newly enacted tax in Claiborne County and the increase in the current tax in Sumner County are presently subject to referendum.) Wheel tax rates range from a low of \$10.00 to a high of \$50.00

III. HOTEL/MOTEL TAXES

Forty (40) counties currently levy a hotel/motel tax. Tax rates range from a low of 1.5% to a high of 5.0%.

IV. MINERAL SEVERANCE TAXES

Forty-six (46) counties now levy a mineral severance tax. Rates range from a low of \$.05 per ton to a high of \$.25 per ton.

V. LOCAL OPTION SALES TAX

All counties levy this tax, with rates ranging from a low of 1.00% to a high of 2.75%. Additionally, seventy-five (75) counties have opted to raise the sales tax cap, while twenty (20) have elected not to do so.

^{*}Claiborne County - Newly enacted; subject to referendum.

Sumner County - Increased from \$15.00 to \$50.00; subject to referendum.

The University of Tennessee does not discriminate on the basis of race, sex, color, religion, national origin, age, handicap, or veteran status in provision of educational opportunities or employment opportunities and benefits.

The University does not discriminate on the basis of sex or handicap in the education programs and activities which it operates, pursuant to the requirements of Title IX of the Education Amendments of 1972, Pub.L. 92-318; and Section 504 of the Rehabilitation Act of 1973, Pub.L. 93-112; respectively. This policy extends to both employment by and admission to the University.

Inquiries concerning Title IX and Section 504 should be directed to Ms. Mary H. Taylor, Assistant to the Vice President, 109 Student Services and Administration Building, Knoxville, Tennessee 37996-0212, (615) 974-6621. Charges of violation of the above policy should also be directed to Ms. Taylor.
