Director of Solid Waste  
Maury County, Tennessee

Maury County is searching for our next Director of Solid Waste. The Solid Waste Director will lead and manage a solid waste system including collection, disposal and recycling operations. The ideal candidate holds extensive knowledge of the operation, design, construction, and permitting of landfills, the ability to compile detailed information and prepare reports on landfill operations and compliance procedures. Strong consideration will be given to candidates who demonstrate excellent communication skills as this position interacts regularly with local officials and the public. Additional desired qualifications include strong budgeting and accounting skills, and the ability to effectively supervise and direct the activities of subordinate staff. This is a full-time exempt position with benefits. The starting salary range is $66,011 - $71,800 annually and will be commensurate with education and relevant experience.

Applications will be accepted through September 30, 2022. Visit maurycounty-tn.gov for more information on Maury County and to view job posting and complete job description.
Grade 14

Solid Waste Director

Nature of Work

This is very responsible administrative and supervisory work involving total responsibility for all operations of the Maury County Class III and IV landfills. The incumbent is responsible for compliance with all existing federal and state regulations pertaining to landfill operations, supervising on site and convenience center staff, preparing annual budgets, overseeing all monetary transactions and collections and the purchasing and maintenance of equipment and machinery. Additional activities include coordinating recycling activities, planning new construction projects and ensuring the proper maintenance and repair of all equipment and machinery. Job responsibilities require extensive knowledge of the design, construction, and permitting of landfills, the ability to compile detailed information and prepare reports on landfill operations and compliance procedures, strong budgeting and accounting skills, and the ability to effectively supervise and direct the activities of subordinate staff. Job performance is evaluated by the County Mayor through review of landfill operations, compliance with federal and state regulations, revenues generated by landfill operations and ability to interact effectively with staff, local officials and the public.

Illustrative Examples of Work

- Determines all construction and design issues for landfill operations including gas and leachate collection systems in order to comply with federal and state laws and regulations.
- Directs the activities of heavy equipment operators on a daily basis to ensure the efficient operation of the landfill and transfer station.
- Supervises the activities of administrative staff and reviews all monetary transactions and collections from individual and commercial clients.
- Compiles data on landfill operations and revenues and prepares and submits detailed monthly, quarterly and annual reports.
- Develops, implements and monitors annual operating budgets to support landfill operations.
- Attends meetings to remain current on laws and regulations and provides information to the public pertaining to landfill operations.
- Makes decisions regarding the purchase, maintenance and repair of landfill equipment and machinery and operates landfill machinery when required.
- Makes decisions regarding the selection, evaluation and discipline and/or discharge of employees.
- Assists with recycling projects and seeks additional grant funding to support landfill operations including anti-litter, tire and recycling grants.
- Ensures compliance with state and federal regulations pertaining to solid waste operations and labor and safety regulations (OSHA, TOSHA, and FLSA).
- Makes decisions regarding the handling of special types of waste to ensure that it is handled safely.
- Assists other departments with excavation projects, waste pick-up and disposal and construction projects when necessary.
- Makes decisions regarding the construction of additional cells for the landfill in accordance with existing blueprints and specifications.
- Performs related duties as required.

**Necessary Requirements of Work**

Graduation from an accredited four-year high school supplemented with considerable coursework in environmental and/or civil engineering (College degree preferred); extensive experience designing and constructing large landfills; thorough knowledge of the equipment and machinery utilized for landfill operations; strong accounting and bookkeeping skills; experience directing and supervising the activities of staff; strong decision making, interpersonal and organizational skills; or any equivalent combination of education or experience to provide the following knowledge, abilities and skills:

- Extensive knowledge of the design and construction of large public landfills (Class III & IV) including all leachate and gas collection systems, drainage and retention requirements and the classification of waste products.
