

Cybersecurity Awareness Training Certificate

Maximize your potential. Learn at your pace.

The **Cybersecurity Awareness Training Certificate** is designed for individuals who want to have a solid understanding of cybersecurity, what it entails, and what you should do to prepare for a cyber-attack.

Participants earn this certificate upon completion of the required **ten (10) courses for a total of twelve (12) credits**. The program consists of various topics related to computer and internet safety, malware, phishing, and how to develop an incident report plan for cyber-attacks.

This certification program is 100% online.

There is a **\$50 enrollment fee**. This certificate is for county employees who want to be proactive and make a difference in their county office's security.
