

Solid Waste Certificate Program

8

COURSES
~12 CREDITS

Strengthen county solid waste knowledge.

Learn at your pace.

The Solid Waste Certificate Program is designed for county officials, professionals, and staff who want to build or strengthen their knowledge of Tennessee county solid waste management systems. It covers local government structure, budgeting, legal obligations, customer service, and best practices for managing solid waste operations such as convenience centers and transfer stations. It is open to everyone, but geared toward those who directly deal with county solid waste operations.
